

## SOFTWARE DEVELOPER

C# / Agile | Organization | Problem-Solving

- Proficient in the concept of Object-Oriented Programming.
- Familiar with HTML/JavaScript/CSS, GIT, C#, Oracle SQL, and bash/shell script in Linux.
- Capability of building a website using front-end programming languages.
- Have knowledge of Java, MongoDB, NodeJS, ExpressJS, TypeScript, and back-end development.
- Proven ability to use Project Management methodology in Software Development Life Cycle and utilize time effectively.
- Be able to learn and apply new skills quickly.

## TECHNICAL SKILLS

C# & OOP concepts  
Front-End Development  
Back-End Development

Oracle SQL  
Java  
Fast learner & Agile

Linux shell scripting  
Friendly & positive attitude  
Time management

## EDUCATION

**Software Engineering Technology – Advanced Diploma (GPA 4.3/4.5)**  
Centennial College, Toronto, ON

Jan 2020 - Present  
Expected graduation: Apr. 2023

### Relevant Courses:

Advanced Database Concepts  
Web Application Development

Programming I, II  
Java Programming

Software Engineering Methodologies  
Unix/Linux Operating Systems

## PROJECT WORK EXPERIENCE

### Software Developer - Music Player

Aug. 2020

Centennial College, Toronto, ON

- Created a Music Player having a user-friendly application design.
- Created GUI for a music player program using C# Windows forms.
- Used various controls and related events in C# Windows forms.

### Software Developer - Bank Account Program

July. 2020 – Aug. 2020

Centennial College, Toronto, ON

- Built a bank account program which displays user list and their transaction histories using C#.
- Gained knowledge of Object-Oriented concepts by using many classes and interfaces.

### Software Developer - Health Management System: Balance!

Jun. 2020 – Aug. 2020

Centennial College, Toronto, ON

- Created Software Requirements Specification for Health Management System.
- Participated in project scope, progress tracking, planning, identification of risks, and review of activities to ensure overall quality of software.
- Promoted active communication among team members by identifying priority of tasks should be accomplished and role to manage workflow.

### Database Developer – E-commerce shopping cart

Jun. 2020 – Aug. 2020

Centennial College, Toronto, ON

- Created e-commerce database using Oracle SQL.
- Designed database by modeling ERD to optimize relationships between data entities.
